Depending on the crop, Allens Farm Cobnuts will be dispatched in their Green state from about the end of August until the middle of September, and Golden from late September onwards. If you do not specify Golden, Green will be sent until finished, then Golden will be supplied. At the end of the season nuts are supplied out of the husk, we will supply the same quantity of nuts but the weight may be up to 20% less than advertised.

If you would like to specify a delivery date please write it in (you can request several deliveries for different dates), otherwise we aim to despatch your nuts within 3 working days. We use Interlink Express (First Class Post for 1Kg) to deliver your nuts to you fresh the next day. If you are not in, the Driver has been asked to put the parcel in a safe place and leave a card, if this is not satisfactory please call us. Our weights include packing and will be within the nominal weight to ensure the correct postage. Overseas orders (Europe) or UK non-mainland orders are only available in 2kg packs sent First Class Airmail and priced at £30 (use the 2.7kg column), add £10 for World Zones.

Pack sizes are fixed, you may order as many of each size as required, to be despatched when required.

Please use our Website [www.cobnuts.co.uk](http://www.cobnuts.co.uk) if you would like to order online
